Print Speed - Up to 6 IPS

Print Width - 4.25" maximum

Print Length - 450" maximum

Description and Part Number:

Sumitag™ BB-E5

S10-10039

Economical Compact

Product Overview

Quality Counts! The Sumitag™ BB-E5 thermal transfer printer is an economical option for lower volume printing operations, yet provides excellent print definition and mark permanence on all Sumitag™ heat shrink products. The compact design is a perfect fit for confined work areas.

Lower Cost! When using Sumitag™ continuous products, the Sumitag™ BB-E5 significantly lowers total installed cost vs. formatted tubing.
