Product Overview:

The Sumitag™ STP-300 DS double sided printer offers high volume simultaneous printing of high performance two-sided heatshrink sleeves. This robust thermal transfer printer is manufactured for industrial applications and offers excellent print definition and mark permanence. No extra processes of rewinding and reprinting are required. A time-saving solution for wire marking where waste and labeling error is greatly reduced.

Product Features:

- Compatible with all Sumitag™ products
- Time saving one pass operation
- Auto positioning for fast media change
- Ethernet or USB communication interfaces
